

BATYLINE®

material data

- **Material reference:** BATYLINE® Canatex 55
- **Material weight:** 530 g/m²
- **Field of application:** Windbreaks, partitions, indoor and outdoor furniture
- **Type of weld:** Overlap 2 x 10 mm
- **Type of welding tool:** Double textured standard electrode
- **Recommended overlap to obtain acceptable tensile strength:** 2 x 10 mm
- **Average tensile strength (weft):**
 - non welded: 2500 N/5 cm
 - welded: 1270 N/5 cm

machine solutions

- **Machine model:** TX, TD 300
- **Length of tool holder:** 1200 mm
- **Accessories:** Double textured standard electrode
- **Software:** EMP, LOP for TD

EMP settings: Energy factor 4,3 Pressure 2,0 kg/cm²
