

deco mesh material data

- **Material reference:** DECOMESH® 331
- **Material weight:** 340 g/m²
- **Field of application:** Coverings for facades, shop windows, POP advertising, shop partitions, fitting-out of shops and supermarkets, decor, tradeshow exhibits, banner stands, displays
- **Type of weld:** Overlap 20 mm
- **Type of welding tool:** Soft electrode
- **Recommended overlap to obtain acceptable tensile strength:** 10-20 mm
- **Average tensile strength (weft):**
 - non welded: 1600 N/5 cm
 - welded: 2280 N/5 cm

machine solutions

- **Machine model:** TX, TD 300-500
- **Length of tool holder:** 1200-1400 mm
- **Accessories:** Soft electrode, eyelet electrode, laser-s
- **Software:** EMP, LOP for TD

EMP settings: Energy factor 4,5 Pressure 3,5 kg/cm²
