Operating system and Software

Operating system

The operating system is developed by Forsstrom programmers and sales representatives with experience in the field. It is a system developed for welders by welders. The computer features a 12" touch screen.

Software

Forsstrom iQ is designed to monitor and analyze users' HF/RF welding department. Powerful reporting tools allow quick identification of weak points and bottlenecks resulting in optimal usage of production capacities.

Extras

Computer and Software
Data transfer program
Travel programs
Control programs

Material positioning
Band holder
Magnet system
Vacuum system
Laser lines

Welding tools
Electrodes
Impulse welding unit
Tube-closing tools
Supplementary tool

Other
Cooling
Welding table
