

# CP9

## New and Improved

### Eyelet change

The CP9 features a redesigned eyelet change mechanism for effortless operation. Backed by Forsstrom's service team, the CP9 sets a new standard in reliability and performance.

### HF Generator

The FG 120 is a small 3kW HF-generator with built-in control system for controlling welding parameters. It is suitable as a stand-alone unit for eyelet welding.

## Technical specifications

**Standard voltage**  
230 VAC

**Fuse max**  
13 A

**Frequency**  
50 Hz

**Pressure**  
6.4-10 bar

**Max electricity consumption**  
1 A

**Litre air per minute**  
25 l/m

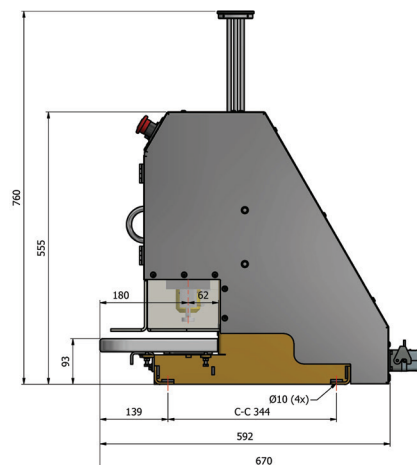

**Working Frequency**  
27.12 MHz
